**Subject:** U&O FIP follow-up

I want to follow-up after last week's discussion and make certain that we're on the same page regarding next steps to move the package forward.

The Administrator received a letter from the Governor of Utah earlier this month. It is my understanding that they or their staffs had discussions and that the FIP may continue on its development/approval path.

R8 is reviewing the cost analysis and coordinating with OAR in regards to the most recent cost estimates in the revised CTG. Is that correct?

Depending upon the results of R8's updated analysis, the TSD may need to be revised to comply with the EA requirements for an Economically Significant rule.

I was to provide you written comments on the SBREFA analysis in the TSD. I hope to do that later today or tomorrow.
